Powderly still has control of the Knights of Labor Convention was shown this morning when the Committee on Laws submitted a report recommending amendments in ted a report recommending amendments in accordance with Powderly's recommendations. It is intended to carry out the "one man" power which he advocated, and provide for a General Master Workman, Worthy Foreman, General Secretary, Treasurer and a General Director of Woman's Work. The General Executive Board consists of four members besides the General Master Workman, and the Co-operative Board shall consist of two members besides Board shall consist of two members besides the General Worthy Foreman. All except the General Executive Board and General Co-operative Board will be taken from the floor of the General Assembly, and when WE ARE BLOWING

officio of the General Executive Board, and shall, as soon as practicable, submit to the General Assembly the names of eight persons from whom the General Assembly shall select four members. This will be done as soon as possible, and at the same session at which the General Master Workman is elected.

After a debate, the report was adopted.

The afternoon session was taken up by the Committee on Law with minor changes of the constitution. Contrary to the recommendation of Powderly, the time of meeting is unchanged. The General Master Workman shall hereafter fill all vacancies on the Board by appointment, this being a new power added to the office. It is now proper for any member of the General Executive Board to approve the report of the Secretary and Treasurer, although that was formerly permitted only to the General was formerly permitted only to the General Master Workman. The General Assembly, so desiring, may hereafter declare vacant any place on the Board, and it can do so without, at the same time, expelling the officer so removed. Before appointment Organizers must pass a proper examination.

to the Knights of Labor delegates. He says:

In violation of all law of Knighthood and justice, you have denied me a fair trial or an opportunity to be heard in my defense, and by your action placed yourselves in full accord with the unlawful and unwarranted action of the General Executive Board, whom I had charged with irregularities, and who, being unable to answer my charges and fearing to meet me, resorted to all manner of intrigue to override the constitution and deny to me the right of a fair trial, such as is guaranteed to every Knight of Labor. Your action is contrary to all law and decency. You have outraged justice, lowered your manhood, and misrepresented your constituents by your votes, and you depend on false reports and burying your actions in silence on your return home, as has been done after past sessions of the General Assembly. This time your constituents will be given the truth by those who have the courage of their manhood. Since you have refused to give me an opportunity to defend myself, I now publish a few of the charges I made, and I defy you, or those whom you have sustained by your votes, to prove them false.

He goes on to enumerate the charges already published. Barry proposes to agi-tate until the General Assembly of the Knights of Labor adjourns. He will then put out his organizers and look after the formation of his new Order, which will be called the Brotherhood of United Labor.

INDIANAPOLIS, November 20th.—The President-elect put in the day, which was cool and pleasant, at work in reducing his stock of unanswered letters. The points strongly at issue before the Committee on Rules are the high and low ball and the moving back of the pitcher. The majority of the committee have declared in favor of high and low ball. HARRISON PUTS ASIDE A PRIZE. While the President-elect was reading his mail this afternoon he came across a blank circular sent out by a Philadelphia blank circular sent out by a Philadelphia newspaper, offering a prize of \$50 to the person who would fill in the correct names of General Harrison's Cabinet. As he read it he remarked: "I think I could win that prize, but I won't try for it." Cabinet-building continues to occupy the attention of political circles, and one can hear Cabinet talk everywhere, except in Harrison's house.

> ANOTHER ACCOUNT. NEW YORK, November 20th.-The Joint Rules Committee of the Baseball Clubs has completed the largest part of its work. An endeavor was made by a few delegates to reintroduce the high and low ball system, but the majority were against the idea an

One of the most important subjects dis-cussed was the position of the pitcher. During the past season some players com-plained that the pitcher was not far enoug away from the batsman, and that a positio three or four feet farther back would be more suitable. A motion to that effect was voted down. Since it was decided that the umpir

should stand behind the pitcher he has in-terfered with rather than helped the batsmen. When the batsmen has hit a fair ball, sending it over the pitcher's head and hitting the umpire, he has no allowance, and is compelled to run. The pitcher has only to stoop and pick up the ball in order to throw him out at first. To remedy this the committee decided that a struck ball constituted a base-hit, and gives the batsman a

base when he hits the umpire.

In order to improve the order of pitching, the committee has reduced the balls to four for the next season. The three strikes

ond base should not be declared out, was voted down.

At 9 P. M. the committee met in conference with the Scorers' Association and day, especially in wheat. After a weak opening May wheat sold off 4 cents and to the Convention suggestions about scoring changes, as given by the newspaper men. The main subject discussed was
the simplification of tabulated scores.

It was generally agreed that the stolenbase column be done away with and its
record included in the summary. Byrnes' suggestion that a stolen base should be credited when the player succeeded in se-curing a base after a fair ball was caught n the fly was generally approved.

As will be seen by the report of the Medical Superintendent, the number of patients receiving care and treatment in this asylum increased 67 during the year ending June 36, 1887, and 93 during the year ending June 30, 1888, at which time there were 1,647 patients in the institution. This number is at least 500 in tution. This number is at least 500 in exnot only are the various wards excessively crowded, but the corridors and attics are necessarily used to furnish sleeping rooms for the large number of patients who have been forced upon the care of the been forced upon the care of the manager of the institution.

It was confidently expected that the overcrowded condition of the wards of the sylum would be relieved to a limited extend by a transfer of patients to the new was rejected—330 to 246. The motion to tend by a transfer of patients to the new Asylum at Agnews, but, as is well known, that expectation has not been realized that expectation has not been realized. Although an appropriation was made for the support of patients at Agnews, and the amount asked for by this Board for the support of this institution correspondingly reduced, no transfer of patients has been made, and all have been retained and supported here.

It is also a noticeable fact that the com mitments to this asylum have been largely in excess of those made to the Napa Asy-Under the circumstances it has been im-

consible by the exercise of the strictest economy to meet the necessary requirements of this institution from the appro-priations made by the Legislature for its support. On June 30, 1888, our expendi-tures exceeded the appropriation by \$12,tures exceeded the appropriation by \$12,405 21, leaving that deficiency, as shown by bills now on file with the State Board of Examiners. We estimate that there will be a deficiency of at least \$15,000 for the present fiscal year, and respectfully ask that an appropriation of \$27,405 21 be made to cover these amounts.

Our failure to obtain the appropriation asked for in our last report, in order that many much needed improvements and repairs might be made, with a purpose of protecting and preserving the public pro-perty, and providing better facilities for the care of the wards of the State placed under our control, has rendered it im ble to carry any of the proposed plans into successful operation, while the necessity for an appropriation has been greatly increased by the delay, and the cost of some of the repairs will now be much greater than if they had been made at the proper time.

APPROPRIATION FOR SUPPORT The number of patients in this asylum at the date of this report is 1,700. Should a transfer be made from this and the Napa Asylum of such a number as the new asylum at Agnews will accommodate, it can not reasonably be expected that more than 200 will be taken from this institution; this will leave 1,500 to be cared for, and that number will be gradually increased by commitments. To support this large num-ber of unfortunates, for the next two years,

will require an expenditure of at least \$230,000 per annum.

It should be clearly understood that the reduction in the number of patients will not proportionately reduce the cost of running this asylum; at present the institution is overcrowded and the removal of 200 per part of 200 pe

floor of the General Assembly, and when selected serve two years.

This is a reduction of two members in each Board, besides the union officers Secretary and Treasurer. But the place where Powderly's influence most appears is the article which provides that the General Master Workman shall be Chairman exofficio of the General Executive Board, and shall as scope as practicable submit to the

session at which the General Master Work-man is elected.

It further provides that the General Worthy Foreman shall be ex officio Chair-man of the General Co-operative Board; that he shall submit to the General As-sembly four names, from which they shall select two, who will constitute the Board.

After a debate, the report was adopted.

Indianapolis, November 12th.-T. B. Barry to-night issued a formal open letter to the Knights of Labor delegates. He says:

EAST VS. WEST. California in the Lead in Steel Ship Washington, November 20th .- Out o e recent efforts of the Government to build a navy has grown a rivalry between build a navy has grown a rivary between the East and West that occasionally bursts forth in a somewhat spirited manner. Per-haps the best exponent of this contest is to be found in the construction of the two new ruisers, the Baltimore and Charleston. The former was begun by the Cramps of Philadelphia several months before the Union Iron Works of San Francisco started tion, so that comparisons and criticisms have been sent back and forth, to the edification of the department and the public.
At first the Eastern firms laughed at the idea of a Western concern undertaking to build a battleship, but from the present utlook it would seem that the Depart-nent did not make a mistake in giving the San Francisco builders a part of the work.
Although the Charleston was begun some time after the Baltimore, she was launched in July last, while the Baltimore did not touch the water till September. The former is also in a much more advanced stage the pinth payment on he high results.

DANGER TO THE REPUELIC.

The growth of the vote selling practice has excited such alarm that discussion has been inauguarted of methods to prevent it in the future. It is asserted by those competent to speak that the "floater" votethat which is on the market - in Indiana is not less than 14,000 and not in excess of one of the smaller States at that, from 14,-000 to 22,000 men offer themselves to political managers for a price, and stand ready to cast their ballots as the buyer-

It is said that the scene in the Courtroom at the time, was one of profound in terest. The Judge did not deliver the instructions from the bench. He cam down and took a chair in front of the Grand Jurors and talked to them in a guilty of violating the election laws. "It is has gone." One of the first things he told asking itself. the Grand Jurers was that they were not limited to offenses perpetrated entirely within the State. " If an offense is begun

Athens set up laws against bribery that in their severity deprived the detected of political capacity and worked confiscation of his property to the State; yet bribery continued, and companies were actually formed to bribe officials for the benefit of members, and Athens decaying, fell into the slough of the most abominable corruption. Toward the close of the thirteenth century, according to Lieber, the example of the Grecian bribery insurance companies was followed in England, but they did not sects the remains in a manner that must maintain a vigorous existence. The Roman take hours to accomplish, cleans and takes politicians followed the Athenian model of venality, until the popular assembly itself, again and through the streets without debecause of the guilt of its members, interposed to prevent their punishment for

sapped, the infamy of bribery will be a a worthy man as inefficient—and now its chief cause of our decay. "Killing may press is busy explaining and apologizing not be crime," says Lieber in his admir- for the action, for London is ashamed of able consideration of this question, "but its haste. bribery always is, and if bribe be opposed by bribe general demoralization is only consummated the sooner, while one party's abstaining from it may become the germ of a better state of things, and may indeed political factor as to be taken into much account. It has grown to its present infamous proportions and alarming power as an instrument of intimidation and for the manipulation of voters by bribery, either in the direct disbursement of money or the traffic in place and perquisites, and it therefore is the twin of the cancer against which the United States Court at Indianapolis urged the Grand Jury to apply the scalpel of inquisition. But that it will be able to do so under present laws with effectiveness is not believed.

The public, let them answer, if they can, the chief objection to their old scheme—that it would be a bid for wenality and corruption in withholding returns of remote precinets, and in doctoring returns of remote precinets, and thus swing the election of a President in any direction desired. It is now more than two weeks since the election, yet there are nearly 120,000 votes to be heard from, though under the election yet there are nearly 120,000 votes to be heard from, though under the election yet there are nearly 120,000 votes to be heard from, though under the election is elected and that there can be nothing gained by either the lunch will be in readiness for those who wish it. be able to do so under present laws with that there can be nothing gained by either who wish it.

The object of the secret ballot was to check bribery and intimidation, or at least to prevent their consummation. In that respect California took a long stride ahead by the adoption of its Codes in 1872. But there are States of the Union where not check bribers after the polis closed just how much of the consummation will print the wine list for use in the cafe, which will contain the names of the wines, the names of the wine list for use in the cafe, which will contain the names of the wines, the names o there are States of the Union where not only is secreey not censured, but publicity is so favored that the voter cannot in any sense be said to be free from cow of those who would intimidate or control him, or, if he repents of having listened to the briber or would take courage against his oppressor, he has not the power to escape him. Thus he has not the power to escape him. Thus in Illinois uniformity of color or size in the ballot is not required, and in the recent the ballot is not required, and in the recent fancied in his wildest flights of imagination.

ballots were three inches wide, the Demo cratic two inches and the Prohibition a half an inch narrower still. The timid voters in the State were nearly as much in the power of the bosses as were those in a the coast, outside of San Francisco, that re- case related by Lieber, where a notorious ecives the full Associated Press dispatches from duelist, who had terrorized a large section numbered ballots to the voters and swore to fight every man whose ticket did not appear in the box correspondent to a list the duelist kept, In fact, Illinois, with her multiform ballot system, is but little in advance of the era when Brigham Young ruled Utah, and all ballots were numbered and registered upon the poll list against no accurate resting place in their memory. If we have a prize fight in San Francisco, the veter's name. But Illinois has the or land or refuse to land a Chinaman, the ompanionship of several States that play econd to the briber and the bully by de-

troying the secrecy of the ballet. California protects the voter in the use of the vignette adopted by his party for its ticket, but only a few States follow her example. Thus, in Louisiana, at the late Electors were printed beneath Republican head-lines and the title "Harrison and and all kinds of manufactories; but the country is dilapidated and deserted. The 22,000. That means that in one State, and Morton." All such devices are companions to bribery, the legitimate spawn of odious ossism, and ulcers upon the political sys tem that will eat their way into the very heart of the Republic itself, unless venalty n public office, corruption in political aspiration, and the extortion and bribery of possism and conscienceless men of ambition are brought to the bar of public judgment, and condemned by such verdicts of the people as will deprive them of their destructive powers and decree their eventual downfall.

RAILWAY LINE.

Cheer the Smoothly Moving Car On Its Way.

Yesterday was a great day for Sacramento, as it saw the successful introduction of electricity as the motive power for propelling street cars. Ever since a few enterprising and energetic business men entered upon the construction of a street railway on which electric cars were to be used, the cry has been heard on all sides that it never would be a success, and everything possible has been done by some people to belittle the efforts of the managers and throw cold water on the enterprise. Yesterday the officers and promoters of the scheme had their day of victory, and received a perfect ovation from the populace as they passed through J street on their

There are a number of new departures this year that lend an air of freshness to what was regarded as an institution as conservative and non-progressive as any. The first part introduces such well known minstrels as J. M. Norcross, Pete Mack, Frank Cushman and Banks Winter. The funny "Lawn Fete" followed. The musical wonders, Leopold and Bunnell, were succeeded by the Hessian Dragoons in new costumes. The great feature of the show was undoubtedly the Japanese troupe, the best family ever brought here by a minstrel show.

Special prices for the Sacramento engagement are announced, and that a matinee will be given on Saurday afternoon.

These gentlemen were repeatedly cheered as the car passed along, and the crowds of citizens were wildly en-

thusiastic over the evident success of the enterprise. Handkerchiefs waved from all the balconies, and the street had a gala day appearance. The people were happy, and those who predicted failure were dumb.

Dyspepsia

Makes many lives miserable, and often leads to self destruction. Distress after eating, sick headache, hearthurn, sour stomach, mental depres-

sion, etc., are caused by this very common and increasing disease. Hood's Sarsaparilla tones the stomach, creates an appetite, promotes healthy digestion, relieves sick headache, clears the nind, and cures the most obstinate cases of dys-pepsia. Read the following: "I have been troubled with dyspepsia. I had out little appetite, and what I did eat distressed me, or did me little good. In an hour after eating I would experience a faintness or tired, all-gone feeling, as though I had not eaten anything. Hood's Sarsaparilla did me an immense amount that's the price of six bottles of il. V. S.,' as the boys call it. Toys for the Holiday season are all in and ready for sale. It is much the largest assortment we have ever carried, and includes a great number of entirely new things.

Something new in Velvet-finished Rubber Balls for small children. The balls are very light, and almost as "lively" as a balloon. Four sizes at 25, 35, 45 and 60 cents.

The "Hero" Steam Engine, works perfectly, and instructs as well as amuses, 50 cents. No possibility

of explosion. Printing Presses, with complete outfits of type,

ink, cards, etc, \$1 75 and \$2 50. Doll Houses, two stories high and covered with handsome tinted paper; 10 inches wide, 161/2 inches long, and 17 inches high. Price, 95 cents. May be packed into small compass.

Door Swings, with neatly-braided willow seats. \$1 25. These swings are provided with straps to keep the children from falling out.

"Old Ironsides," the largest and handsomest Gun we have ever offered. The cannon is gilt and the carriage blue. It shoots a rubber ball, which, being soft, can do no damage. Total length of gun. about 20 inches. Price, 95 cents.

The "Parlor See-Saw," a novelty for boys or girls. Price, \$1 25.

Brass Bedsteads, size 11x18, with mattress and

pillows complete, \$1 25.

The "Buffalo Bill" Gun. What boy has not heard of Buffalo Bill, his daring exploits and wonderful Wild West Show? No wonder the Buffalo Bill Gun is a favorite with all young marksmen. In accuracy it is the closest approach to powder and ball we know of, and "bull's-eyes" are scored con-

stantly by those who are practised. Price, 65 cents. Building and Alphabet Blocks of all kinds. Matched Pictures of Indian and Frontier Life. There is hardly any limit to the interesting combinations that can be made with this toy. Price, 25 cts.

Telephones, with complete outfit, \$1. Toy Pianos, 15 keys, \$1. Iron Express Wagons, with steel wheels and sheet-iron bodies; light, strong and durable. Bodies 13x28 inches, \$3 75; larger sizes, \$4 75 and \$5 75. Splendid values in Rocking Horses at \$3, \$4 25, \$5 75 and \$7 85. on Programme was appointed.

A large number of essays were handed in to be read during the session. Speeches were made by General Vallejo and Massrs. Kimball, Block and Thomas. A telegram was sent to the National Grange now in session at Topeka, Kan., wishing them God-speed in their efforts, and asking that they hold their next session in California. eral Manager. The Convention reassembled at 2 o'clock. The report of the Committee on Programme was adopted.

An essay on insect pests and their extermination elicited great discussion. David Lubin of Sacramento and several others held the opinion that there should be further legislative restriction, and a proper heart of appreciation of appreciation of the state of the st board of experienced scientists, who should board of experienced scientists, who should declare the remedy to be applied, and the laws amended as to compel every one to use such remedy. The foelishness of the present system and laws was fully ventilated.

A Suicide's Identity-The Proposed Sea-Wall Railroad-Etc. San Francisco, November 20th.—It has been ascertained that Dr. H. V. Warren,

who committed suicide yesterday, has a sister, Mrs. Fowler, at Valley Ford, Sonoma county. He was at one time a telegraph operator on the Cincinnati Enquirer, and also an employe of the Western Union of THE SEAWALL AND RAILROAD. A joint committee of the Chamber of

Commerce and Produce Exchange met to-day and discussed matters to be presented to the Legislature looking to the disposition of that portion of city property facing the seawall, and to building a belt road along the city front. The committee declared it-self in favor of legsing the property self in favor of leasing the property on short leases and in favor of the belt road. SOME SHARP PRACTICE.

At the meeting of the Harbor Commisthe meeting of the Harbor Commissioners J. S. Antoinelli was awarded a contract to remove the sheds on Section 8 of the seawall. On opening the bids it was shown that the contractors again tried to cut one another's throats. McMullen watched Antoinelli, and prepared his bid so as to outbid him. Artoinelli found this as to outbid him. Antoinelli found this out, and altered his bid so as to overbid McMullen one dollar.

The Coming Comet.

It is fancied by a grateful patron that the next comet will appear in the form of a huge bottle, having "Golden Medical Discovery" inscribed upon it in bold characters. Whether this conceit and high compliment will be verified remains to be seen, but Dr. Pierce will continue to send forth that wonderful vegetable compound and potent eradicator of disease. It has no equal in medicinal and health-giving properties, for imparting vigor and tone to the erties, for imparting vigor and tone to the liver and kidneys, in purifying the blood, and through it cleansing and renewing the whole system. For scrofulous humors and consumption, or lung scrofula, in its early stages, it is a positive specific. Druggists
